*The deductible of the Basic Health Insurance (basisverzekering) is yearly determined by the national Government. Apart from the compulsory deductible, you can add a voluntary deductible. Both are covered by the ISIS Au pair insurance.

This table of benefits is a selection of all benefits. All benefits and conditions that need to be met, are written in the policy conditions. The most recent policy conditions are available on our website aupairverzekeringen.nl.

Additional cover

You always issue the insurance with All-in cover. Then all emergency medical expenses are covered by ISIS.

Once the Basic Health Insurance (basisverzekering) is issued, you can alter the medical cover from All-in to Additional. You get a 25% discount on the ISIS Au pair premium. To ask for this change of cover you use our online form to Changing cover.

Please mind that the Additional plan does not give a refund for dental expenses.

When the Additional cover is applicable you do need to ask for a refund by the Dutch Health insurance company. Afterwards, you can file a claim for the deductible with de Goudse/ISIS.

More information about Additional cover is to be found on aupairverzekeringen.nl.

Table of Premiums

These premiums do not include taxes. Per year the tax is at least €13,99 but no more than €17,14 depending on the chosen coverage.

Europe or World?

You can only choose Europe when the au pair's country of residence is in Europe. Please look at the policy conditions for a list of the countries are part of Europe as far as the insurance company is concerned.

Age of the au pair

The moment you apply for the insurance, the au pair can not be older then 30 years old.

When do I apply for the insurance? You (or the au pair agency) need to apply for the insurance before the au pair leaves the country of residence. When you know the departure date, please apply for the insurance.
